AFRICA.

These titles are printed, with some reduction and modification, substantially in the form in which they appear in the Public Catalogue, and represent the collection, in the Library, on Africa and the countries and places included. No attempt has been made at a bibliography further than to print the card-titles practically as they stand.

For titles of works on Egypt and the Nile consult the Bulletin for October, 1893 (No. 94).

Under Africa the customary geographical classification of the Card Catalogue has been observed; the same system holds for the smaller divisions, excepting in cases where a still simpler classification is warranted; in such cases the Card Catalogue is not closely followed.
